CALENDAR ITEM NO. **C48** (CONT'D)

Public Trust and State's Best Interests Analysis:

Recreational boating is a water-dependent use that is generally consistent with the common law public trust doctrine. The California Legislature has identified private recreational boating facilities as an authorized use of public trust lands (Pub. Resources Code, § 6503.5). The Lessee currently has a lease for a pier, ramp, floating dock, swim area and four moorings. The adjacent upland parcel is privately owned and developed with dwellings that facilitate a marine science program and summer youth camp.

The subject pier was damaged in 2014 by Hurricane Marie and subsequently rebuilt without Commission authorization. The pier serves as the only landing in the area to access Button Shell Beach. In addition to providing access to the upland, the pier is an integral part of educational and recreational opportunities operated by the Lessee. The Lessee operates the Catalina Island Marine Institute (CIMI) and YMCA Camp Fox. CIMI is a year-round outdoor marine science residential school program. Camp Fox is a youth summer camp program.

In addition to the pier and appurtenant facilities, the lease also includes a seasonal swim area, all of which facilitate the operation of CIMI and Camp Fox. Water-related recreation is also recognized generally as consistent with the common law public trust doctrine.

Commission staff believes that amending the lease to allow for the already reconstructed pier will not substantially interfere with public trust needs at this location, at this time, or for the foreseeable term of the proposed lease. For all the reasons above, Commission staff believes the issuance of this lease amendment is consistent with the common law public trust doctrine and in the best interests of the State.

OTHER PERTINENT INFORMATION:

1. On April 26, 2013, the Commission authorized a General Lease – Recreational Use to the Lessee, for the continued use and maintenance of an existing pier, ramp, floating dock, swim area, and four moorings.
2. On August 27, 2014, high wave conditions created by hurricane Marie destroyed the existing pier. In July 2015, the pier was rebuilt in a similar footprint as the previous pier. The height of the pier has been increased to better protect it from future high wave events. The Lessee is now requesting an amendment to the lease to allow for the reconstructed pier.

3. The Lease Premises have been reconfigured because the pier and seasonal swim areas have changed, resulting in an overall smaller lease area subject to rent. Staff recommends adjusting the annual rental amount to \$6,368 from \$7,636 to reflect the reconfigured lease area.
4. Staff recommends the issuance of this amendment as it promotes Strategy 1.1 of the Commission's Strategic Plan to deliver the highest levels of public health and safety in the protection, preservation, and responsible economic use of the lands and resources under the Commission's jurisdiction.
5. The staff recommends that the Commission find that this activity is exempt from the requirements of the California Environmental Quality Act (CEQA) as a categorically exempt project. The project is exempt under Class 1, Existing Facilities; California Code of Regulations, Title 2, section 2905, subdivision (a)(2).

Authority: Public Resources Code section 21084 and California Code of Regulations, Title 14, section 15300 and California Code of Regulations, Title 2, section 2905.

6. This activity involves lands identified as possessing significant environmental values pursuant to Public Resources Code section 6370 et seq., but such activity will not affect those significant lands. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
